REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

An adjustable cover having a variable outside diameter including a circular nonporous top member having a plurality of apertures adjacent a peripheral rim of the top member, the apertures evenly spaced apart in a circle concentric with the peripheral rim, each of the apertures having a tongue projecting radially outward therefrom, a plurality of nonporous substantially trapezoidal vanes extending down from the peripheral rim, the vanes being curved and circumferentially overlapping to form a dome like shape, each of the vanes having a tab projecting upwards into one of the apertures and resting on the surface of the top member, the tab having a slot to engage the tongue and each of the apertures and hold the vanes to the top member in a circular overlapping ring arrangement and adjacent vanes contacting each other, the tongue and slot forming a hinge for each of the vanes so that the vanes move up or down together retaining the circular overlapping arrangement to vary the outside diameter of the cover is not taught nor fairly suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
